Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12, 15-16 and 20-22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Woolman et al.(U.S.Pat.4,644,855). Woolamn discloses a beverage production system that discloses a suitable container 246 for receipt of the desired beverage that is placed immediately below door 222 and injector 220, supported upon a drip tray 248. Behind drip tray 248 is disposed a waste sachet receipt bin 250.

Allowable Subject Matter

Claims 13-14 and 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Su, Johnson and Halliday are cited to show structure similar to the claimed invention.
